How I Wander

Part I *How I Wonder*

“The most astounding fact is the knowledge that the atoms that comprise life on earth are traceable.”

Part II *Shooting Stars*

“These stars—the high mass ones among them—when unstable in their later years, they collapsed and then exploded, scattering their enriched guts across the galaxy. These ingredients form stars with orbiting planets, and those planets now have the ingredients for life.”

Part III *Looking Up*

“When I look up at the night sky, I know that we are part of this universe, we are in this universe, but perhaps more important than both of those facts is that the universe is in us.”

Soloist Noah Gordon, Trumpet

Part IV *Gravity*

“Many people feel small because they’re small and the universe is big, but I feel big because my atoms came from those stars.”

PRESENTS

THE COVEN

The Council Rock North Marching Band is proud to present their 2018 field show, *The Coven*. The Salem Witch Hunt has become an archetypal story which has been told countless times: a small sub-culture forms within a society, the majority of that society feels threatened, conflict ensues, and the sub-culture is often left decimated. At its core, however, this is a story of the fear of something new and different, and all too often that fear bubbles into trouble for both sides as no one wins when prejudices dictate actions. We hope you enjoy *The Coven*!
